**DETAILED ACTION**

With respect to the "Craps Table Layout" dated about 2/1994, such has not been considered since the details of the layout could not be determined from the content and clarity of the copy of the reference provided by the applicant. The "Craps Table Layout" dated about 12/18/1999 and "Ask Mr. Craps" references have not been considered since no copies of these references can be found in the file. "Bonus Craps" reference cannot be fully considered without a date provided.

***Claim Rejections - 35 USC § 112***

Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The "plurality of wager areas" of claim 19 lack clear structural relationship to the other previously recited elements.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 19-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Ornstein 5,718,431.

As to claim 19, Ornstein shows a craps table layout having player betting areas 76 and wager areas 74 and 77 that correspond to each player area. As to claims 20, 25 and 26, '431 shows an unlimited number of first-sixth "point markers" in streak chips BC2 and S. The intended use of these markers to be "indicative" of a made point accumulation fails to distinguish over the applied art. While features of an apparatus may be recited either structurally or functionally, claims directed to an apparatus must be distinguished from the prior art in terms of structure rather than function. In re Schreiber, 128 F.3d 1473, 1477-78, 44 USPQ2d 1429, 1431-32 (Fed. Cir. 1997). As to claims 21, 23, 28 and 30, the use of chips in craps is well known. The use of "pay tables" as called for in claims 22, 24, 29 and 31 is inherent in casino table game so that the dealer knows how to resolve a wager.

Art Unit: 3711

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hobert and Parra show craps wagering games.
